

Sessions II & III
Pest Management: Insects

Top-of-Mind Concerns: Water & Pest Control

2011 Producer Survey

- Key Research Issues -

% of Respondents Who Ranked Issue in Their Top 5

	SE	Mid	SW	FW	US
Input Costs	66	64	73	70	69
Resistant Weeds	76	73	34	23	54
Variety Selection	41	36	44	53	42
Resistant Insects	< 6	12	< 9	< 10	< 10

Session II

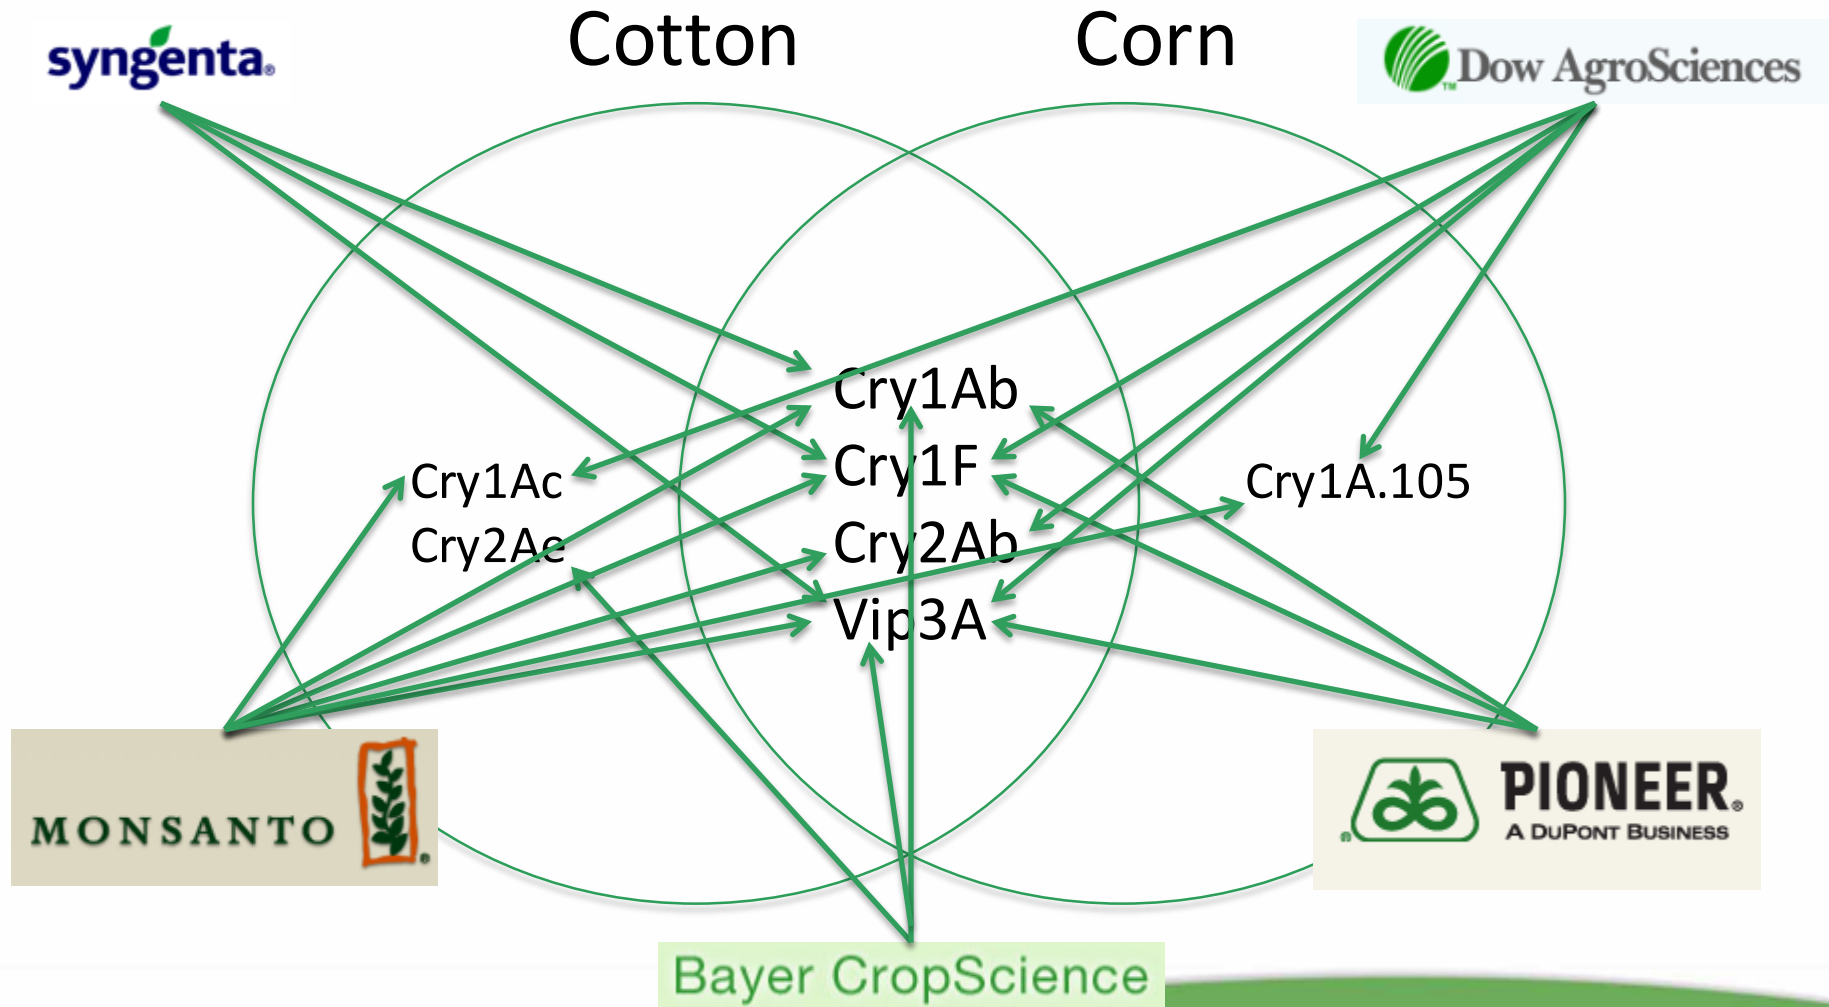

Pest Management: Insects

- The vast majority of farmers in the US mentioned *pest control* in their top 5 concerns
- Volatile commodity prices and increasing input costs require farmers to wisely manage their cotton crops
- Focus on managing key insect pest problems, delaying resistance, reducing input costs, and the effects of the changing cropping patterns on farms-scale pest ecology
