

Session III

Weed Management

Introduction

by

Bob Hayes

“Quotes”

- **“If we could just figure out a way to spray Roundup over the top of cotton, weed control would be simple.”**

“Quotes”

- **“The best thing to add to Roundup is more Roundup.”**

“Quotes”

- “...the complex manipulations that were required for the development of glyphosate-resistant crops are unlikely to be duplicated in nature to evolve glyphosate-resistant weeds.”

“Quotes”

- **“Just tank mix a little of this with Roundup and it will kill them.”**

“Quotes”

- “That ‘resistant’ horseweed (marestail) is just a Tennessee problem”

“Quotes”

- **“I ain’t gonna change nuthin. I’ll just wait and see what happens!”**

“Quotes”

- **“Now we just need a variety that will let us spray Roundup after the fifth leaf.”**

“Quotes”

- Just wait until ‘Liberty Link’ gets here. It will solve the problem and I can quit paying Monsanto.”

“Quotes”

- **Glyphosate resistant Palmer amaranth will make Asian soybean rust seem insignificant.”**

Dr. Ford Baldwin

“Quotes”

- **“Glyphosate resistant pigweed in Georgia—’em Georgia weed guys are just trying to stir things up!”**
- **“Ah, them chemical companies will come up with a new herbicide for it.”**

“Quotes”

- **“That stuff worked good as an experimental, but now it won’t kill anything.”**

“Quotes”

- **Man, I know, but I didn't think it would happen to me.”**

“Quotes”

- “I can’t go back to post-directing or cultivating. We don’t even have anyone that can set a cultivator.”

“Quotes”

- “Want to know how to control Palmer amaranth without glyphosate?”

Ho! Ho! Ho!

“Quotes”

- **“This Palmer amaranth stuff makes me glad I am 18 months from retirement.”**
